

DEMOCRATS DENOUNCE G. O. P.

WOULD APPLY PLUMB PLAN TO INDUSTRY

Economic Program Framed by Railroad Leader is Discussed at Capitol

DEFINES PUBLIC INTEREST

Says People Are Entitled to More Service at Lower Cost

WASHINGTON, D. C.—A Plumb plan for all American industry, modeled after the plan of the same name for the railroads, has been prepared. Copies of the plan, captioned "An Industrial Program by Glenn E. Plumb," are being circulated in Washington.

The plan proposes for all American industry the system of tripartite control advanced some time ago with the backing of the railroad brotherhoods. It proposes practically the same division of representation for capital, labor and the public.

Four Classes of Industry

Industry is classified into four divisions in this way:

1. Those "individualistic in ownership and operation, including the farmer and the small artisan, contractor and manufacturer, who is both capitalist, laborer and consumer."

2. All industries "formerly individualistic, but which through organization have so developed that organization is separated from labor and ownership itself only in direction and supervision of production, in which it engages the efforts of others who have no share in ownership."

3. Industries in the shape of a grant from society in the shape of a franchise, grant of privilege or monopoly. In this division are included all public service corporations except those engaged in interstate commerce, and all natural resources.

4. Railroad and commercial transportation facilities.

Defines "Public Interest"

"Public interest" is defined in the plan as follows:

"It is the right of the public to obtain better, cheaper, or more products or service at a lower cost. The constitution denies the public power to deprive the owner of his investment of a fair return on such investment. If society pays more than this amount, which the owner retains if it lawfully is required to pay."

Under the plan declares that the measure of what a workman shall receive "depends entirely on the amount in value of service which he gives."

How Division Is Made.

"To correct this system," says the plan, "there must be absolute equality between the three interests—the public, capital, labor."

"Society shall receive profits in the shape of better, cheaper, and more service."

"Capital shall receive guaranteed protection of investment and the current rate of return which in the markets of the world provides the acceptance at par of the securities which represent invested capital."

"Labor shall receive that rate of wages which secures the service of the world, and in addition to wages shall receive its share of all the savings which labor can effect in the processes of production."

Program Which He Offers.

"I submit, therefore, to the consideration of the American people the following political program:

"First, as to railroads and all means of transportation of persons, commodities, and intelligence, the adoption of a plan in accordance with the principles of the Plumb plan."

"Second, as to all industries based on patents, privileges, exploitation of natural resources, and enjoyment of monopolies, public ownership of such utilities with the expansion of the principles of the Plumb plan to their control and operation, or the adoption of a tripartite representation of the public, private capital employed, and labor, with equal authority and a division of the savings."

"Third, as to all industries engaged in production not based on grants or privileges or monopolies, the adoption of legislation requiring all to participate with capital in the control and management of the industry and to share in the profits."

"Fourth, individualistic industries—arms and productive enterprises owned and operated by the same individuals—shall be left entirely to the individuals owning and operating them, relying upon the restored freedom of the law of supply and demand to protect the interests of the public."

Hangmen Kicking

British Executioners Want Pay Increased; No Longer Allowed to Sell Ropes.

LONDON—England's hangmen want their pay increased and their claim has been presented to the House of Commons. The hangmen recently were deprived of the privilege of taking away the rope with which the criminal was hanged. This reduced one of the sources of their revenue as the rope could be sold for a good price to curiosity collectors.

Smoke Scare Calls Out Fire Fighters

"Keep your chimneys clean, especially when burning soft coal," is the warning reissued Thursday by Chas. Heyl, fire department chief.

Central company was called to 19 W. Main st., the Merchants and Savings Trust Co., to investigate smoke that was pouring out of the first and second floors.

RED VICTORY OPENS WAY TO PERSIA AREA

Denikine's Army Has Been Cut in Two; Fear New Disaster

TAGANROG IS TAKEN

Control of the Caspian for the Bolsheviks Now Seems Likely

LONDON—Bolsheviks have occupied Taganrog in the territory of the Don Cossacks on the north shore of the Sea of Azov.

Gen. Denikine's army has been cut in two through huge bolshevik push to the sea of Azov at Taganrog, and its flanks have been thrust back, leaving a large gap. In addition, there comes a claim from the bolsheviks of the capture of further east of the town of Krasnovodsk, on the Caspian sea, and while this is not confirmed it is generally accepted as true.

The capture of this important port of Krasnovodsk creates the grave possibility that the Reds may overrun northern Persia and occupy Teheran, which probably would mean the establishment of bolshevik rule in Persia. The taking of Krasnovodsk permits the Reds not only to control a large part of the important Krasnovodsk-Merv railroad but gives them free access to the Caspian. There seems little then to prevent them from gaining control of the Caspian from more or less ineffective volunteer fleets. Once in possession of this sea there remains only a small British force and a few Russian ships.

There is little hope held out here that, deprived of these supplies the Denikine forces can hope to make a resistance that would prove effective against the overwhelming Red army.

Baku with its important oil supplies on the western coast of the Caspian, seems likely also to fall into bolshevik hands and its occupation would provide a base for further operations against the rear of Denikine's hard pressed right wing.

If the bolshevik reports are true Gen. Denikine has suffered a terrible disaster for not only have the Reds severed his left and right wings but they have captured large quantities of war material, including much of the food and supplies of the army.

There is little hope held out here that, deprived of these supplies the Denikine forces can hope to make a resistance that would prove effective against the overwhelming Red army.

Coming February is Extraordinary Month

Not since 1880 has there been such a February as there will be this year, for in addition to having the usual leap year—29 days, the month is to have five Sundays. Ordinarily the leap year would have five Sundays every 28 years, but as 1900 was not a leap year, the regularity was upset. There will be two such Februaries before the next century mark, one in 1948 and another in 1976.

Hits Palmer

Senator France Compares Dealings With Packers and With Labor Leaders.

WASHINGTON—Senator France branded the agreement of the attorney general with the packers as improper, declaring that in his judgment Mr. Palmer, as chief law officer of the government, was under obligation to carry through the prosecutions which had been started against the packers.

"If the Sherman anti-trust law was violated," Senator France said, "the department of justice was obliged to prosecute and no agreement could relieve the department of its duty and responsibility. I believe in government by law, and not by injunction or agreement. I consider the whole procedure highly improper."

Senator France asked whether in the opinion of the attorney general, the packers had violated the criminal provisions of the Sherman law. Mr. Palmer replied that they had certainly violated the Sherman law, which he pointed out, is both a civil and a criminal statute. Senator France then criticized the department's methods in these words:

"Here we have a group of multi-millionaires who are suspected of committing a crime, and they, through an agreement with the government, are practically granted immunity, while this very day the spies of the department of justice are going about getting evidence against poor, misguided labor leaders. Will these poor people be allowed to make an agreement if they violate the law?"

Hertzfeld, J. Alex Rayburn, Otto Rohm, J. Hertzfeld and James Clemmons. C. E. Hanson, member of the assembly, has been named as a member of the board of directors. Italian Paper Hoots Jugo-Slavia Plan

ROME—The Giornale d'Italia, discussing the idea that the Adriatic question be settled by direct negotiations between Italy and Jugo-Slavia, says there is no confidence in such a scheme. Italians hold the view, the paper says, because "we know the exaggerated claims of our adversaries and their absurd pretensions which have wounded the feelings, dignity, and rights of Italy in such a way that it is impossible even to discuss them."

REPRESSION MEASURE HIT IN SENATE

Senators Borah and Norris Speak Against Restrictive Bill

OFFER AMENDMENT

Smoot Tells of Book on Bolshevism Taken From Howard University

(By the Associated Press)

WASHINGTON—Attacks on provisions of the "sedition bill," particularly the proposal to authorize the postmaster general to exclude offending publications from the mails, continued today in the senate. An amendment authorizing any person against whom such postal orders might be directed to appeal to the courts under bond and authorizing courts to suspend such exclusion orders pending a hearing, was offered by Senator Borah.

Senator Norris questioned the necessity of any legislation. "Free speech and free press are the corner stones of any free government," he said. "The trouble is when you give a little power to administrators to encroach upon these rights, the administrators always stretch it to the limit and the successors of the first official stretch it further finding precedent in what he has done."

During the discussion Senator Smoot had up a book on bolshevism by Albert Rhys Williams which he declared was taken from the library at Howard University, a negro school. He told the senate that if such literature was kept there for use by students he never would vote to give federal aid to the institution.

Will the president announce his candidacy for a third term, renounce all ambition to succeed himself, or leave the question up in the air? Will the president reiterate his demand for the unequal ratification of the peace treaty, with its league of nations covenant, and force the issue into the presidential campaign, presumably by himself as the candidate seeking vindication on a platform of unconditional ratification, or will he open the way for the acceptance of reservations by the democrats?

Will Bryan pave the way for his own candidacy for the democratic nomination and come out for a compromise on treaty reservations, with a view to immediate ratification and the exclusion of the issues from the campaign?

None of the democrats here can answer these questions. The president's letter will be delivered to Chairman Cummings of the national committee, who will read it at the dinner as a prelude to the speech making. He has been advised that it will take less than ten minutes to read.

Mr. Bryan has prepared his address, but reserves the right to depart therefrom after hearing the communication from the president.

All the leaders are expecting a display of political fireworks for the reason that a break between Wilson and Bryan apparently has been developing for some time on the question of the peace treaty. The president has been unyielding in demanding the acceptance of the league of nations covenant without essential modifications and has been threatening to pocket the treaty if modified to the extent of the Lodge reservations and to seek re-nomination on the issue of the league.

"Wilson is writing his letter with just one man in mind—Bryan," a veteran Democratic leader said tonight, "and Bryan is preparing his speech with just one man in mind—Wilson. That's the whole situation in a nutshell."

Want Wilson to Speak

Everybody is trying to figure out whether Bryan is really going after the nomination. It is clear that he intends to try to influence the choice of the convention, and many Democrats believe he will maneuver to win the prize for himself. The anti-Bryan men want the president to say at once whether he intends to seek a third term.

If Mr. Wilson is not a candidate, the anti-Bryan Democrats will get busy to head off the nomination, but so long as the nomination remains a possibility they cannot promote the candidacy of such men as Palmer and McAdoo.

"Bryan would not have been nominated in 1896 had it not been for the silence of Grover Cleveland on the third term question right up to the convention time," said one committeeman.

Proceedings Begun at Providence Against 18th Amendment

(By the Associated Press)

PROVIDENCE, R. I.—An injunction to restrain federal officials in Rhode Island from interfering with the national prohibition amendment with "sale of non-intoxicating malt beverages" was asked in three bills of complaint filed in the U. S. District court here today. The actions were brought by Michael J. Lynch in behalf of the James Hanley Brewing company, Narragansett Brewing company, and Providence Brewing company. U. S. Attorney Harvey A. Baker and the collector of internal amendment, the bill asserts is "wholly null and void" and title 2 of the Volstead act for the enforcement of constitutional prohibition is declared to be "unconstitutional and void and beyond the power of the federal government to enforce."

Moves of Wilson and Bryan Sole Topics of Political Discussion

WILL READ LETTER

Commoner Has Speech Ready and Will Suit Time to Wilson Message

(By the Associated Press)

WASHINGTON—After rubbing elbows all day with the Democratic leaders assembling from all parts of the country for the meeting of the national committee, you get the idea that the fate of the nation, is going to be shaped by the doings at the Jackson day twin dinners tonight.

With the president preparing "an important message" to the party chiefs at the dinners and William Jennings Bryan scheduled to speak his mind on party policies, the suspense among the Democrats has become fairly oppressive. All business such as convention arrangements, has been overshadowed by these events, and the Jeffersonians are milling around the hotel corridors doing nothing but speculate on what Wilson and Bryan are going to say.

What Will They Do?

Will the president announce his candidacy for a third term, renounce all ambition to succeed himself, or leave the question up in the air? Will the president reiterate his demand for the unequal ratification of the peace treaty, with its league of nations covenant, and force the issue into the presidential campaign, presumably by himself as the candidate seeking vindication on a platform of unconditional ratification, or will he open the way for the acceptance of reservations by the democrats?

Democratic Party Tells of Work for Common People it Has Done

(By the Associated Press)

WASHINGTON—Resolutions endorsing the treaty of Versailles and denouncing as unpatriotic the attitude of senators who would defeat it directly or by nullifying reservations was unanimously adopted today by the Democratic national committee in session here.

The "arrogant" republican leadership of the senate was denounced as having earned the "contempt of the world" by throttling the treaty for seven months and the senate was called upon to "quit playing politics."

Reviewing the legislative order of the two Wilson administrations the resolutions also expressed gratification that the president was regaining health after a breakdown "due largely to his efforts for world peace."

The resolutions were adopted at the committee's quadrennial meeting to select a time and place for the 1920 convention.

Concerning the peace treaty the resolutions said:

"We affirm our approval of the treaty of Versailles and we condemn as unwise and unpatriotic the attitude of those senators who would defeat its ratification, either directly or by overwhelming it with reservations that are intended to, and will have the effect of nullifying it."

"The failure of the senate ratifications leaders to offer or to permit consideration of interpretative resolutions that would preserve the general purpose of the treaty and to so permit its ratification condemns them to the criticism of the nation and to the contempt of the world."

The resolutions said that when the democrats came into power in 1913 they found "the nation in a condition of comparative industrial and commercial depression" and with "the banking system" in the hands of a few men at whose whims panics periodically occurred. It was added that "these and other ills had existed for 16 years under republican rule without any relief."

"To remedy this condition," the resolutions continued, "the democratic administration entered immediately into a vigorous constructive program," adding that establishment of the federal reserve banking system, entitles the party to the everlasting gratitude of the country while the farm loan banking system gave to our agricultural agents the relief long demanded by them."

The resolutions then referred to enactment of the law giving "the people the right to elect their U. S. senators by popular vote" and said the "party had enfranchised the women and for the first time gave labor the fair showing to which it was entitled."

Referring to the avowed objects of the country's participation in the war the resolutions continued:

"As a result, the resolutions said, 'conditions are unsettled, a definite proclamation of the end of the war is delayed.' It declares that the treaty being ratified 'with reasonable promptness the world would now be engaged in the fruitful work of reconstruction.'

"We join," said the resolutions, "the demand of its agricultural interests and of labor, and of the great business industrial and commercial organizations of America that the senate quit playing politics with this sacred question and give to the world the word that America is ready to at least make a trial of universal peace. We repudiate the infernal suggestion that having joined our associates in war that is now leading them to chaos we are to withdraw and leave them to a merciless fate in order that we might maintain a so-called traditional state of 'isolation' that we surrendered when we went to the defense of our rights and to the aid of struggling humanity."

THRIFT DRIVE PLANNED TO GO TO EVERYBODY

Luncheon Speakers Assert Campaign Will be on Community Basis

(By the Associated Press)

WASHINGTON—San Francisco was selected today by the democratic national convention in session here as the place for the party's 1920 convention.

After 27 votes had been cast Kansas City and other cities withdrew and the vote for San Francisco was unanimous.

Monday, June 28, was fixed as the convention date.

"It should be understood that the campaign for Thrift week is being conducted on a community basis and that no individual company or firm is backing the movement in such a way as to derive profit from it. The presence of such a large group of the leading citizens of Madison indicates that you realize the motive and the need for the campaign." This was the declaration of M. S. Dodgeon, chairman of the speakers' bureau, for Thrift week at the luncheon held for the speakers Wednesday noon at the Y. M. C. A.

In outlining the publicity for the campaign, E. R. Gardner of the university told the advertisers that would appear during the week of the pamphlets that would be distributed and of the posters to be used. C. B. Chapman, president of the Association of Commerce, expressed the belief that the business interests of the city would welcome a return to wiser buying, both on the part of those who are able to pay their bills and on the part of those who are running into debt to make their purchases. Business would be willing to take a temporary loss, he said, for the sake of the ultimate benefit to the city. Our Christmas Savings Club

Is The Talk of the Town

Here is a typical conversation we heard the other day:

"I never spent such a happy Christmas as I did this year," said a lady member, "due to receiving from the Commercial National Bank three checks, each for \$26.02, with which I was able to buy the gifts I had planned for Hubby and the kiddies. And I only paid 2c the first week and 2c more each week for 50 weeks. All my relatives have joined the Commercial National Bank's Christmas Savings Club, because they have seen how easy it was for me to save the pennies that in years past, I had trifled away."

PROCEEDS OF RECITAL GO TO ITALIAN WAIFS

Jeanne L'Hommedieu Fish to Sing at Benefit Program Tonight

Proceeds of the benefit opera and song recital given this evening by Jeanne L'Hommedieu Fish at the Woman's building at 8:15 o'clock will go to aid the home at Portogruaro, Italy, of about 200 Italian waifs who are among the war orphans being provided with food, clothing, and shelter by American relief organizations.

Mrs. Fish, who spent 10 years studying with the best teachers of voice in Great Britain and Italy, has had considerable experience in professional singing in England, France, and Scotland, and spent the last five years during the war in singing for soldiers in camps abroad.

The recital has been carefully planned to include selections from the songs of different nations, the first group being composed of old English songs written during Shakespeare's life, the second group of modern French songs, and the last of Scotch folk songs of the northern islands, the songs of the Hebrides, collected and arranged by Marjory Kennedy-Fraser, with whom Mrs. Fish sang in London.

Wants Contestant to File His Papers; Leaders to Act Saturday

(By the Associated Press)

WASHINGTON—Victor Berger telegraphed Speaker Gillett today asking permission to delay presenting his credentials until the contesting papers and Berger's attorney could appear before the house election committee. Speaker Gillett replied that he would discuss his case with other house leaders Saturday.

Berger Gives Plans

WASHINGTON, D. C.—Republican house leaders were without word from Victor L. Berger as to when he intends to present his credentials. If he fails to put in an appearance by the end of the week a plan is on foot to propose his exclusion in advance of the filing of certificate of election.

The following letter has been received from Mr. Berger by William Tyler Page, clerk of the house:

"The voters of Milwaukee knew what they want and they seem to know whom they want. I have been re-elected. I shall, of course, respect E. H. Thomas and Alma Jacobus as my secretaries for the same salaries they received before. Kindly send me the necessary blanks that I may fill them out.

"I hope that the national house of representatives will bethink itself that it is supposed to be a house of representatives and stand for representative government, even for Socialists. Otherwise I'll be compelled to repeat the stunt of Daniel O'Connell in Ireland and Charles L. Bradlaugh in England."

STRONG MEN AND WOMEN WIN OUT

In business, at work, or at home, you must "make good" or be a failure. The healthy red-blooded man or woman tackles every task fearlessly, with joy and the "pep" that wins.

Plenty of red blood, rich in Iron and Phosphates, is needed if you would win in life's battle.

One of our leading doctors has often remarked, "Life is full of needless failures, all because men and women do not keep their blood and nerves charged with rich Iron and Phosphates; there is no excuse for the thousands of run-down, weak and nervous men and women when Phosphated Iron is within reach of all. It will bring back the joy of living and doing; give you rugged health, strength and restful sleep."

If you are all run down, weak, thin or nervous, Phosphated Iron will build you up and make you feel like a live one; it never disappoints. No matter what anyone says you owe it to yourself to take Phosphated Iron. Try it and note for yourself how after only a few days it increases your health and strength one hundred per cent.

Ask for Phosphated Iron Capsules, and be sure you get capsules. For sale by C. H. Naffz, the Druggist; and leading Druggists everywhere. Adv.

Born in 1839 Dr. Caldwell Still in His Office Daily

Wonderful vigor of the founder of Dr. Caldwell's Syrup Pepsin.
Millions now use his famous prescription

Physicians know that good health depends largely upon proper digestion and elimination and that much sickness results from constipation. No one knows this better than the "family" doctor, the general practitioner.

Dr. W. D. Caldwell of Monticello, Illinois, was and is a family doctor. The whole human body, not any small part of it, was his practice. More than half his "calls" were on women, children and babies. They are the ones most often sick. But their illnesses were usually of a minor nature—colds, fevers, headaches, indigestion—and all of them required first a thorough evacuation. They were constipated.

Dr. Caldwell in the course of 40 years' practice, for he was graduated from Rush Medical College in 1875, had found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1892 he decided to use this formula in the manufacture of a medicine to be known as Dr. Caldwell's Syrup Pepsin, and in that year the preparation was first placed on the market. The picture of Dr. Caldwell that appears on the package was taken in that year.

The preparation immediately had as great a success in the drug stores as it previously had in the doctor's private practice. Today the third generation is using it.

Mothers are giving it to their children who were given it by their mothers. Every second of the working day someone somewhere is going into a drug store to buy it, for Dr. Caldwell's Syrup Pepsin is selling at the rate of over 6 million bottles a year.

Its great success is based on merit, on repeated buying, on one satisfied user, telling another. There are thousands of homes in this country that are never without a bottle of Syrup Pepsin, and the formulator of that prescription is fortunately living to see its wonderful success.

Women, children and elderly people are especially benefited by Dr. Caldwell's Syrup Pepsin. While it is promptly effective on the most robust constitution and in the most delicate cases, it is mild and gentle in its action and does not cause griping and strain. Containing neither opiates nor narcotics, it is safe for the tiniest baby and children like it and take it willingly.

DR. W. D. CALDWELL TODAY

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest-selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. D. Caldwell, 512 Washington St., Monticello, Illinois.

New Treatment That Knocks Rheumatism

75c BOX FREE TO ANY SUFFERER
Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.
The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "We prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed. I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expense to me personally."
F. H. Delano, 1600-A Griffin Square Bldg., Syracuse, N. Y. I can send only one free package to an address.—Adv.

BIRGE INDORSES REFERENDUM ON PEACE TREATY

Expresses Approval of Student Vote in Statement to Cardinal

Indorsement of the plan of the inter-collegiate peace treaty referendum to be held Jan. 13 has been made by President E. A. Birge in a statement expressing approval of the opportunity to be given students and faculty members to register their views on the treaty and the League of Nations.

President Birge's statement to The Daily Cardinal is as follows: "This referendum on the peace treaty has been made by a committee whose central office is in New York and whose working members are representatives of the daily papers at Harvard, Yale, Columbia, and Princeton universities. The object, which has the approval of many prominent men of the country, is to secure discussion of the peace treaty in the colleges and an expression of views of students and faculty regarding it. I concur in approving the plan and I believe the discussion of the treaty and registration of views regarding it may be of service to the country."

Expressions of opinion on the League of Nations from faculty members and students will be welcomed by The Daily Cardinal. Articles should be limited to 250 words and be signed by the writers, whose names will not be published if such request is made.

27 COUNTIES UNITE IN RURAL PLANNING

Within the last 60 days after the passage of the rural planning law in Wisconsin, 27 counties had organized under the terms of the act and some had already appropriated the necessary funds to begin carrying out the plans.
Many other counties are expected to organize and start a definite line of rural planning at the January and February meetings of the county board.
The almost immediate response of so large a percentage of the counties of Wisconsin indicates, says F. A. Aust, who represents the College of Agriculture on the general advisory board, the need for rural planning. Mr. Aust points out the importance of restoring and preserving historic spots and beautiful scenery now, before the prices of land advance further. The mapping out of county roads and setting aside certain places in the county for parks are other possibilities.

French Fighter Ready To Split Purse 60-40 And Give Way 25 Pounds

Willing To Make Concessions For Good of Sport, Descamps States; Bout Now Seems Sure

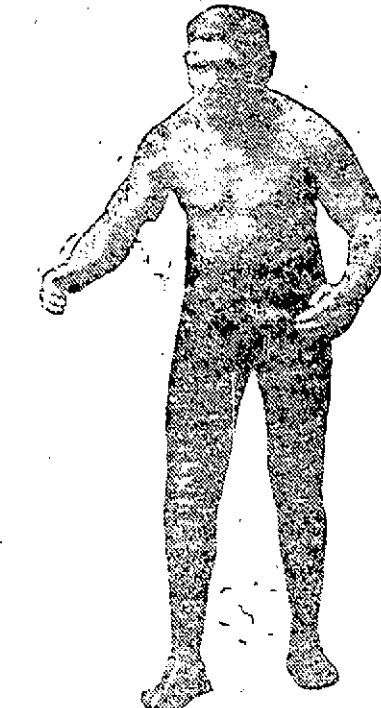

Coffroth's \$400,000 Offer for Dempsey-Carpentier Likely to be Accepted

(By the Associated Press) PARIS—Georges Carpentier is willing to give concessions in the matter of weight to meet Jack Dempsey, according to a statement made Wednesday night to the Associated Press by Descamps, Carpentier's manager. Descamps said he was willing to split the \$400,000 purse offered by James Coffroth for a bout in California on a basis of 60 per cent for the winner and 40 per cent for the loser.

Carpentier is willing to journey to a strange land, face an exotic climate, give away from 25 to 30 pounds in weight and accept a split of 60-40 of Mr. Coffroth's offer, said Descamps. "We had intended to demand a 50-50 split but are willing to accept a 60-40 division in order to show this is not merely a money-making proposition but also a sporting event. We will endeavor to give American sportsmen a real championship battle."

HERMANN REFUSES STATEMENT ON PROPOSED RESIGNATION CINCINNATI—August Hermann, chairman of the national baseball commission, would not say Wednesday night whether he would resign from that position at Thursday's meeting here of the commission. When asked if he contemplated resigning, he said: "All I can say is, you be at the meeting."

Will Wrestle at Turner Hall Sat.

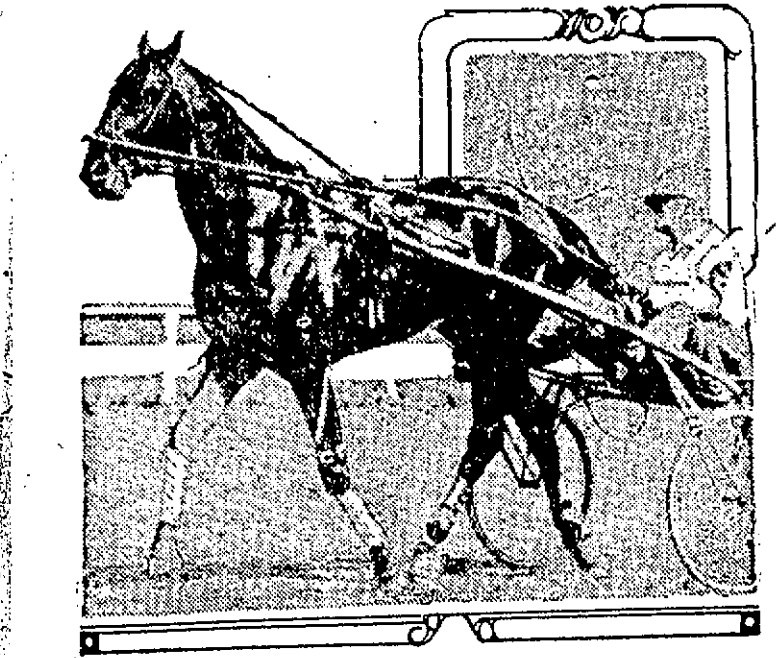

"KID" HANSON, MADISON

Charlie Peterson, Chicago, wrestler, who will meet Kid Hanson in the wind-up of the wrestling card to be staged by Dr. E. L. Bump at Turner hall, Saturday night, is expected to arrive here today to complete his training. Hanson weighs 170 while his opponent scales 165. Coach Joe Steinbauer will referee the bouts.

Young "Doc" Sannes, Madison, and Young Kelly, Racine, will grapple at 135 pounds in the first preliminary at 9 o'clock. Ramsey Menah, an Egyptian wrestler who has made his home in Madison a number of years and fought with Company C over-seas, has been signed to take the mat in the semi-wind-up with an opponent not yet chosen.

VICTORY OF "McGREGOR THE GREAT" AT SYRACUSE SURELY TICKLED HIS DRIVER

Walter Cox driving McGregor the Great.

Walter Cox, one of the stars of the grand circuit, achieved one of his greatest ambitions last season when he won the \$10,000 Empire at Syracuse with McGregor the Great. Cox's horse won the race in straight heats and set a record for the first heat by stepping it in 2:03 1/4. This was the fastest time ever made in the event.

ROUNDY'S CORNER

Steve Stephenson, the lawyer, is using a bowling ball that has been in the Park alleys for 3 years. They call it the "punkin" ball from the way it rolls down the alley. Now Steve has the nerve to ask "chuck" for a private locker for it. We always knew lawyers had nerve, but did not think they had that much "gall."

I went to the Strand the other night and left my new hat in the next seat so I could keep good track of it. But I fell asleep, and a woman came in and sat down on it. She said, "O, is this your seat?" I said, "No, but that's my hat."

Joe Hubbard claims this is the first year that he ever was in condition to see the New Year "in."

"ROUNDY," you beat it?

The world was destroyed by fire once and a second time by water. Well, the "water" is here now, but it looks as if starvation will beat it out.

There will be a show in town this week by the name of "Fair and Warner." There's a booking agent with the "gaff." Can you beat it?

In the game between the Brooklyn Tigers and South Madison last night one Brooklyn player wore a football head-guard. As some one helped Spectator "Swede" Hanson on a brick fell out of his pocket so after all we see the Brooklyn man believes in "safety first."

Four Jap wrestlers have arrived in the U. S. to try their luck against the American wrestlers. They ought to make good. One Jap strangled the whole world at the peace conference.

The Michigan Baseball team is going to take a trip south this spring. If we remember rightly, last year's football team went "west."

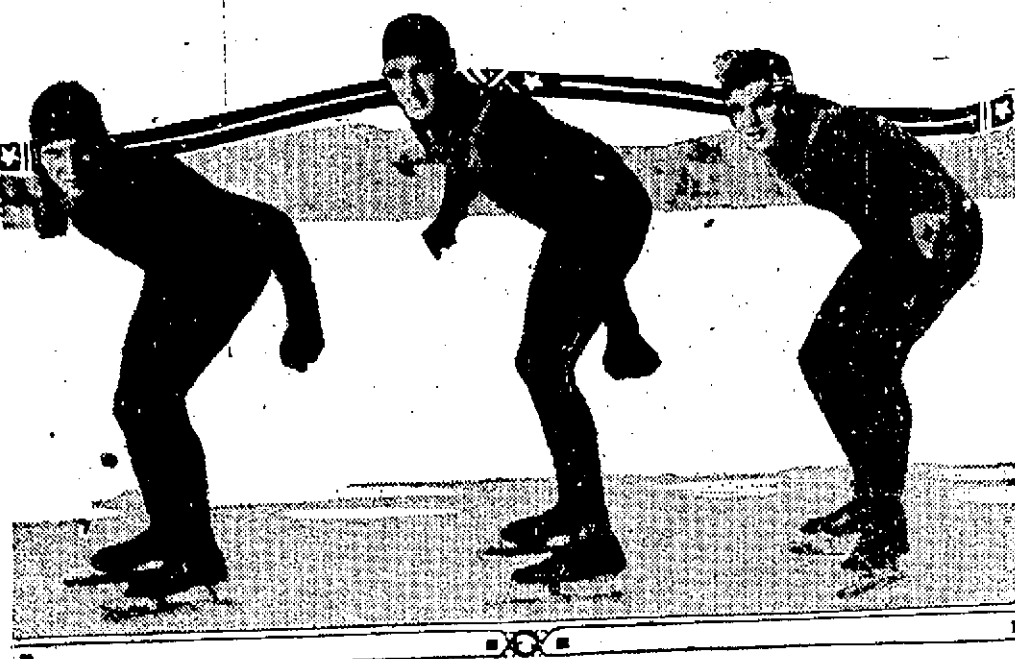

Well, this is leap year you know. It would be easier to take if there were a few "Hops" in it. Not that we're opposed to prohibition, O. No.

Georges Carpentier, the French champ, is a business man. His manager, Descamps, is even more so. He makes old man Shylock look as loose as ash.

Skinny Knocke is wearing two sets of arm bands on his shirt sleeves. We don't want to give him away, but he must be wearing his brother's shirt and trying to make it fit.

The proceeds of the next Escher Market basketball game are going to be donated to Manager "Chuck" Zach, is the report. The amiable graduate of the school of corns and bunions and their relation to modern foot-wear ripped his pants yesterday on the Madison Gas Company truck.

Skating Champion Stars In Meet

Charles Jewtraw, national and eastern amateur champion skater, carried off the honors in the recent eastern championship events at Newburgh, N. Y. Jewtraw won the quarter-mile, half-mile and mile championship races. Ray Bryant, teammate of Jewtraw's from Lake Placid, finished second in the half-mile. A big field of skaters from the eastern and northern states participated.

Hitting The Maple

It is now incumbent upon us for the month of this season to announce a sweeping victory for The Capital Times five over their rivals of the Journal team. The Times' bowlers seem to have all their big bowlers for one special night. The first game Wednesday night went to the Times' bowlers by over 100 pins, 919 to 809; the second by an 85-pin margin, 886 to 801; and the third by 33 pins, 847 to 764. The Schillingers, with the able assistance of Leo Fleckenstein and Ryanone Mergen, simply played rings around the Journals.

Ethelda Bleibtry Proved Best Woman Swimmer—McGilvray Leads Sprinters

Swimming records fell like 1919 with all the gusto they displayed before the war. On nine occasions nicks were made in old marks by present-day swimmers. Among the men water performers, Norman Ross was best, while Ethelda Bleibtry, conqueror of Fannie Durack, Australian swimmer, was best of the women.

Perry McGillvray did a lot of record-breaking, starting the year by setting a new mark for 100 yards back stroke. His time was 1:07 1/2. For seventy-five yards, breast stroke, Michael McDermott lowered the world's record to 0:47 1/2. In running a 440-yard back stroke race, McGillvray made a new record of 2:52 3/4 for 200 meters, 4:56 for 300 meters and 6:02 3/4 for 400 meters. Norman Ross started his record-breaking in April, smashing the mark for a half-mile indoors and setting it again at 10:55 1/2. His new records were: 600 yards in 7:22, 2-1/2 mile yards in 8:01, 700 yards in 8:42, 750 yards in 9:18 1/2, 800 yards in 9:56 1/2 and 850 yards in 10:33 1/2.

Harold Krueger established a new junior record of 57 3/4 for 100 yards in winning that event at Alameda, Cal.

Miss Ethelda Bleibtry swam 100 yards back stroke, in 1:31 1/2, a new record for women. Ben Princell, plunging for distance in a 75-foot tank at Omaha, set a record of 40 1/2. Buddy Watson set a record of 42 1/2, 500 yards in 8:42, 750 yards in 9:18 1/2, 800 yards in 9:56 1/2 and 850 yards in 10:33 1/2.

Was Hardly Able to Get About
Before He Began Taking
Tanlac

"Talking about things that help people, I have just received a letter from my sister in Waterloo, Iowa, telling me she has gained sixteen pounds in weight by taking Tanlac," said A. R. Steiner, 400 East Page street, St. Paul, Minn., recently.

"My sister was on a visit to me a short while ago," he continued, "and she was suffering from stomach trouble. She had been advised by a doctor to eat very light food, and as I saw the great benefit she was getting from it I decided to try it myself. For I had been troubled with my stomach for the past two years. I had a very poor appetite, and the little I did manage to eat seemed to lie right in the pit of my stomach, and I would bloat terribly after eating and have the worst sort of cramping pains in my stomach, and at times I had such bad attacks of heart-burn I would nearly go wild. My back gave me a lot of trouble, and I had such intense pains in the small of my back I could hardly bend over. To add to my other troubles, about two months ago I began to suffer with rheumatism in my shoulder blades and arms, which got so bad I could hardly do my work and could not even put on my coat without assistance. I was so nervous I could get but little sleep and would roll and toss from one side of the bed to the other all night long, and would get up in the morning all tired out. I was so badly run down and had lost so much weight I was so weak I could hardly get about at all.

"Well, while I have only taken five bottles of Tanlac in all my improvement is simply remarkable. I have such a good appetite I am happy all the time, and my stomach is in such a splendid condition I can eat anything I want without suffering the least bit from it afterward. The pains have all gone out of my back and I move with the least sign of the rheumatism. In fact, I never have an ache or pain of any kind. I sleep as sound as a log every night and have gained in weight and strength until I can do twice as much work as I could before I began taking Tanlac. Yes, sir, I can recommend Tanlac after what it has done for me, and I know it will do the same for others if they will only give it a fair trial."

Tanlac is sold in Madison by Luckey Pharmacists in Jefferson by W. A. Perkins, in Middleton by Dr. A. M. Teckman, in Stoughton by O. N. Falk & Son, in San Prairie by W. L. Schultz—Adv.

Governor Asks N. Y. for Prohibition Vote

ALBANY, N. Y.—Reversal of the
action of the 1919 legislature in rat-
ifying the prohibition amendment to
the U. S. constitution was urged
by Gov. Alfred E. Smith in his an-
nual message to the 1920 legisla-
ture at its initial session Thursday.

The governor said there was grave
doubt as to the power of a number of
state legislatures that have ratified
the eighteenth amendment to do so
in view of the referendum provisions
in their respective constitutions.

WILLIAMS IS MAKING NEW REVENUE PLANS

Collector is Now Awaiting
Word on Which Branches
Are to Remain

"I have received no further word
as to moving the revenue office from
Madison to Milwaukee than that con-
tained in the brief telegram yester-
day stating that the change had been
ordered," said Burt Williams, as-
sistant collector of internal revenues
for Wisconsin, Thursday morning. "Until
detailed instructions are received I
do not know which departments will
be retained here. Since the consoli-
dation of the two districts in
August we have been handling all
the central accounting and adminis-
trative work in this office. I do not
know how many members of the of-
fice force will be retained here.

"For the present we are contin-
uing the work here. We are ex-
pecting income tax return blanks
from Washington any time and will
mail them out at once to persons
with taxable incomes all over the
state. Because all returns must be
in by March 15, the first few months
are the busiest of the year in this
office. Disorganization incident to
moving will be inconvenient, of
course."

Will Be Branch
Madison will be a branch office
with practically the status of La
Crosse, Eau Claire, Superior, Wau-
sau, Green Bay, Oshkosh, Sheboy-
gan, and Racine, if the ordered
transfer to Milwaukee is as far-
reaching as at first indicated. If
subordinate departments are re-
tained here the Madison office would
be larger than other branches. It is
said to say the Madison branch will
be as large as before the consoli-
dation, affording ample service.

The fight for the internal revenue
office has been raging for months.
Madison was believed the victor
when the consolidated office was re-
moved to this city in August, but
the Milwaukee Association of Com-
merce and other civic bodies of the
cream city applied pressure on ev-
ery democratic politician within
reach. The announcement of the
transfer, set for Jan. 16, was from
Joseph Martin, democratic national
committeeman.

Both Cities Visited
When the Milwaukee protests at
the change to Madison began, vehe-
ment Commissioner Borden order-
ed a hearing and, F. E. Frazier, su-
pervisor of internal revenues offices,
and R. C. Nash, in charge of the
offices in three northwestern states,
were sent to look over the ground.
They visited Madison, then went to
Milwaukee.

When C. B. Chapman and George
B. Flynn, representing the Madison
Association of Commerce, went to
Washington recently, ostensible to
offer on the proposed post-office,
they were advancing Madison's
claims to the state office of the re-
venue department.

New Jersey to Launch Legisla-

NEW YORK—Gov. Edwards of
New Jersey and group of prominent
democrats decided on Wednesday to
launch legislation by which that
state would seem permit the sale and
manufacture of beer and wines con-
taining up to 5 per cent alcohol by
volume. They take the stand that
congress has no right to legislate on
purely intrastate matters.

A LABOR TEMPLE

ANNOUNCEMENT of the plans of the Madison Federation of Labor for its own home is a manifestation of labor's growing appreciation of its power and dignity. It is an indication of the new spirit that has come over labor which promises to reflect itself in many ways in a new ordered world.

It is high time for labor to begin to assert its place in the world. Labor in this country is far behind the workers in European countries in giving evidences of its own independence and self respect.

For too long the deliberations and counsels of labor have been held in other people's dingy halls. For too long labor has depended for fair treatment of its aims and ambitions in other people's newspapers. For too long labor has depended for industrial justice at the hands of other people's political parties. For too long the economic position of the workers has been determined by other people's economic systems.

It is time for labor to do things for itself.

The growing position of labor demands a decent and dignified place in which to counsel and to plan and to fraternize. There is no greater business organization in the country than organized labor. There are over 2,000 stockholders in this organization here in Madison and they deserve better quarters than a rented hall.

There are many things that labor in the United States should have that it does not have. We believe that the leadership of Samuel Gompers, who is an old man, is much to blame for the present situation.

It is deplorable that labor in this country has practically no labor press. The last four years have given labor an eloquent demonstration of the disadvantage it faces in having its position placed before the people by newspapers controlled by those who exploit labor. What set the public against the steel strikers and the coal strikers? The truth? No, it was a perversion of the truth by newspapers deliberately setting out to place the workers in a bad light.

English workers have recognized the power of a labor press. One of the great accomplishments of the British unions has been the remarkable growth of English labor's powerful organ, The London Herald. In the short time it has been before the public it had attained a circulation of over 600,000. Statesmen and governments fear it; it is a powerful weapon because it reaches the workers with the truth.

The spectacle of Sam Gompers, every four years, going to each of the old political parties and getting platform promises that are later forgotten is not one that is commensurate with the possible place for labor in the field of political action. Gompers has continued to steer away from the field of political action. As a result labor has gone its way and it has not wielded its political strength as a unit.

How much have the reactionary members of the Wisconsin legislature ever cared about labor's demand? Why? Because they know that the labor strength in Wisconsin is split and confused at nearly every election, there has been no leadership that has made labor's votes count.

What has labor to hope for from either of the old parties at the coming election? We will hear the usual pre-election palaver from Wood and Lowden and McDoo and Palmer. We will hear golden tributes to the workers. They will be flattered and petted, BEFORE ELECTION. And after election they will get just what Mr. Palmer has recently given them.

Labor is big enough and mighty enough so that it should not have to obtain justice through the instruments controlled by others. Labor should have its own implements. It should have its own meeting places. It should have its own newspapers. It should have its own instruments of political action. That day, we believe, is speedily coming.

PART OF THE STORY

SIR HARRY LAUDER last night undertook to mildly lecture the American people by saying that the thing to do now is to "go back to work, to get on the job."

Sir Harry then stated that by diligence and thrift he had managed to accumulate \$500,000.

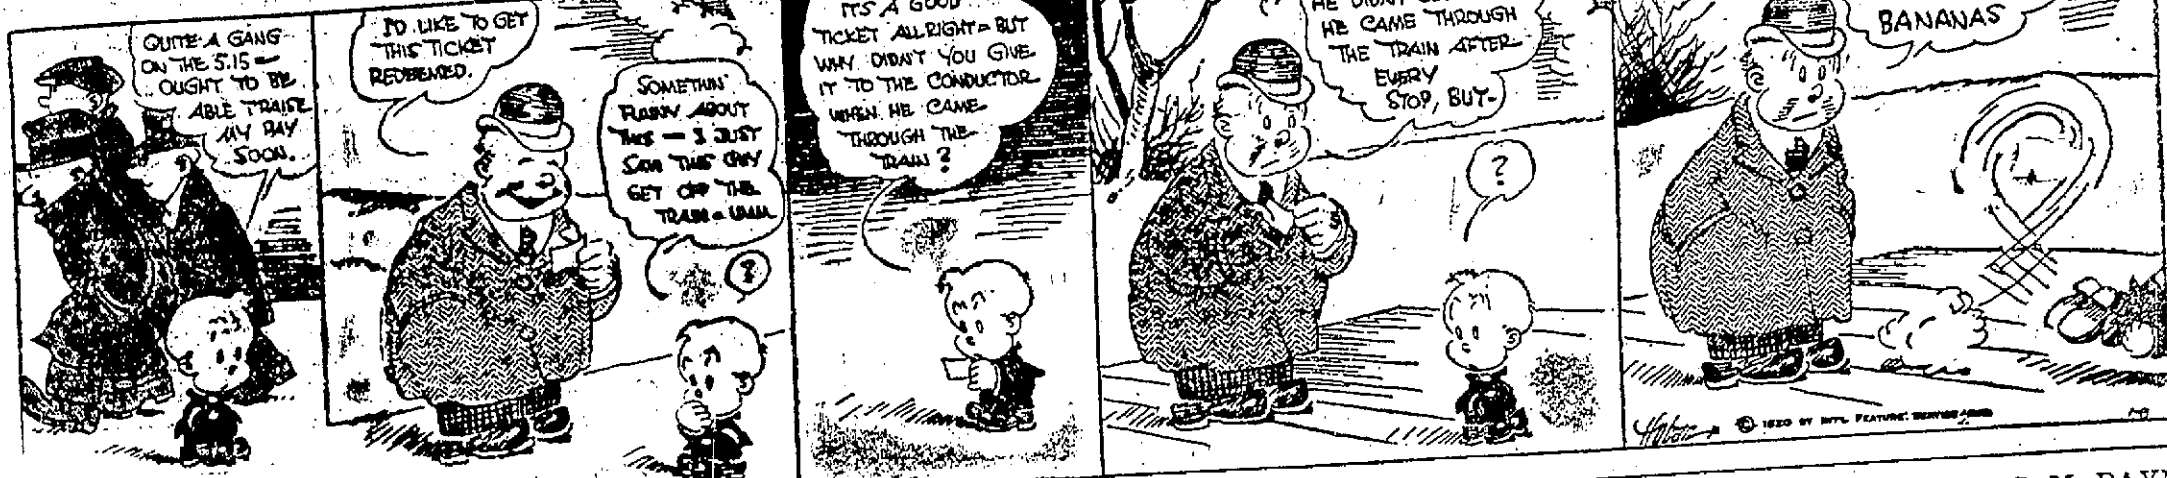

Our visitor's admonition is good enough as far as it goes. Sir Harry, however, forgot one thing. Sir Harry has \$500,000 to show FOR HIS WORK. It is because thousands of people in this country have NOTHING TO SHOW FOR THEIR WORK that we have so much unrest.

There are thousands and thousands of men in this country willing to put in a good day's work every day. But they do object to profiteering highwaymen holding them up every week and taking their pay envelope from them.

Sir Harry would sing a different song if his \$500,000 was being taken from him by others. If Sir Harry had to go about the country and be about as poor at the end of the week as at the first he, too, might have some sympathy for the man who is being exploited by a vicious economic system.

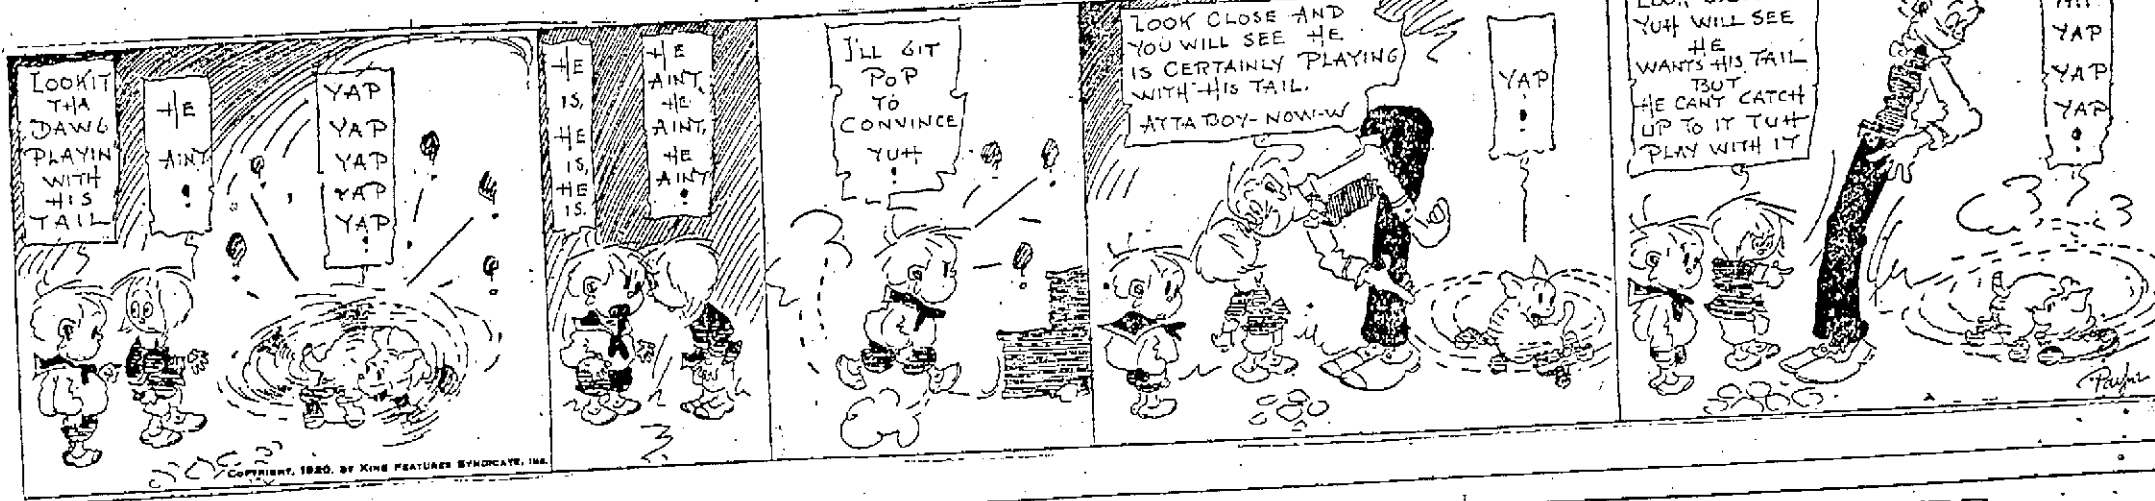

Yes, let's GO TO WORK. Let's GET ON THE JOB. But let's also have something left after we have BEEN TO WORK AND AFTER WE HAVE BEEN ON THE JOB.

Lauder Given Great Reception; "Fair and Warmer" Here Tonight

Noted Comedian is Entertained at Banquet by Kiwanis Club; Tells Americans to "Get Back on Job"; Many Old Favorites Are Sung

Tremendous applause greeted Sir Harry Lauder upon his appearance at the Fuller Wednesday night, where he played to a packed house. He ended his speech with an appeal to the young men of this country to find permanent work and to assist in the solution of the problem of labor unrest.

As an added feature of the banquet, Miss Margaret Rupp, daughter of Mr. and Mrs. John D. Rupp, and Miss Florence Bliss, daughter of Mr. and Mrs. Joseph Bliss, danced the Highland fling. Mrs. Thomas L. Tuttle, 1138 Spaight st., won a garment, donated by R. T. McGuire of the Simpson Garment Co., in a drawing contest.

"Fair and Warmer," Avery Hopwood's celebrated farce which has won New York in a hubbub of excitement and laughter for one year, and which has been spread for it by thousands of out-of-town visitors and by hundreds of out-of-town newspapers whose New York town correspondents have recommended it without reserve, will be presented by Selwyn & Company at the Fuller opera house tonight at 8:15.

Following Sir Harry's performance, a vaudeville program of unusual excellence was given. It included three beautiful acrobats of great skill, a beautiful posturing number, a very clever imitation of bird, animal, train and steamboat sounds, several Scotch songs by Miss Marion Valance, and Elmer Cleve, a master of the xylophone.

Preceding the theater performance, Sir Harry was honor guest at a banquet given by the Madison Kiwanis club at the city Y. M. C. A. More than 200 members, their wives and friends were seated at the banquet tables, when amid a volley of applause, Sir Harry rose to express his delight in the reception which had been offered him.

"It's a bonnie world, folks," he said, rolling his "r's" in the broadest Scotch, "and a' we have tae do is tae keep it bonnie. I dinna ken when I'll ever be in Madison again, but maybe some of ye will be coming tae the auld country before I'm gone."

"Beware" has the merit of being a drama that is founded on facts. It is divided into two parts, first an ancient and then a modern episode, and covers a vast sweep of history from the time of William the Conqueror down to the present time.

This picture, with all its multifarious scenes of love and intrigue, passion and comedy, will be seen at the Fuller on Sunday, Monday, Tuesday and Wednesday.

DAVID WARFIELD IN "THE AUCTIONEER"

One of the present season's most important dramatic events in this city will be the coming engagement at the Fuller next Saturday, marriage and night of David Warfield. The play in which he will be seen is a revival of his first great success, "The Auctioneer," since the production of which 18 years have passed.

In the intervening period this universally beloved and admired actor has achieved a fame in the dramatic world that is all his own. "The Auctioneer" is a comedy in three acts and is the work of Lee Arthur and Charles Klein, but it is with Mr. Warfield's exquisite embodiment of its leading character, a poor old East-Side peddler, that public interest is chiefly concerned. It is regarded as one of the finest examples of character impersonation in the annals of the American stage.

AT THE ORPHEUM

Catalano and Williams

big Douglas Fairbanks picture that has been breaking records at the Grand all week, will be presented for the last time tonight. There is no question about this being the best picture "Doug" has ever made, possibly the reason is that he wrote the plot of the picture himself. The picture will be given over to a benefit for the program committee of the Junior Prom. Creighton Hale and June Caprice will be seen in their newest picture "A Damsel in Disress," adapted from the Saturday Evening Post story of the same name.

THE FULLER

In the new World picture, "His Father's Wife" which will be shown at the Fuller theater tomorrow, June Elvidge will handle a role in which she has never appeared before—that of a step-mother.

THE NEW STRAND

"John Petticoats" is not only the name of the Paramount-Aircraft picture which is being shown at the Strand theater today, tomorrow, and Saturday. It's the name William S. Hart, who stars in the film, gave himself when he discovered that the modiste shop which he inherited from his deceased uncle was not a saloon, as he in his lumbago fashion rather hoped, but was a dainty little establishment selling ladies' frocks and furbelows. A Mack Sennett comedy, featuring Ford Sterling, surrounded by the ever welcome bevy of bathing girls and Literary Digest's "Topics of the Day" will also be shown.

ORPHEUM

Irene Williams, whose future has been predicted by many, as a coming Broadway star in the near future, will make her first appearance in this city at the Orpheum, this evening, when she will appear with Henry Catalano, in an up-to-date offering, entitled, "A Courtship in Song." Neal Abel, the man with the mobile face, and with mannerisms, comedy to the bill. Fred Sosnan, an entertainer, who is well known to Orpheum patrons, and Gladys Sloan, a singing comedienne, are scheduled to appear. The Lamont Trio, lively steppers of 1920, and Kingman pictures will make up the balance of the program.

NEWS NOTES FROM MOVIELAND

CONNIE TALMADGE is always keeping people guessing. In her pictures she is usually a little disturber and in real life she seems much the same. When she had her hair bobbed in a moment of frivolity she started everybody. She was not content, however, to merely bob her own hair—she tried to get every one of her screen friends to do likewise. Viola Dana and the Gishes and all the rest of her acquaintances were tempted by the pretty Miss Talmadge to do away with their long and unruly locks. In fact, Connie was so very persistent that her friends used to hide the scissors when she paid them a visit.

Now Miss Talmadge has startled everybody by refusing to comment upon her reported engagement. We know several swains who are pining away because they feel sure that the report is true that Miss Constance Talmadge, the pretty sister of Norma and Natalie, is engaged to Irving Berlin, the famous composer of popular music. Neither of the two will have anything to say about the report and in view of the fact that recently the two have been seen together often, well, there seems to be nothing for the disappointed youths to do except transfer their affections to Natalie, the youngest Talmadge.

A STAR OF YESTERYEAR

Maurice Costello, he of the curly hair and romantic build, who thrilled feminine fans when the Biograph and Vitaphone were the only two companies mentioned in movie circles, Maurice, the popular, who used to win every favorite-leading man contest, is at present engaged in Corinne Griffith's newest picture, "Humane Collateral."

GOSSIP BITS

Madeline Traverse, Fox star, having completed "What Would You Do?" Denison Clift's original story, is taking a short vacation.

Constance Talmadge

One awaits eagerly the screen appearance of Doris Keane in "Romance," the play in which she was so remarkable on the legitimate stage.

When you see "Humoresque" on the screen you will know that Fannie Hurst, the author, liked it even if it doesn't meet with your approval. Frank Borge made the adaptation. Alma Rubens is the star.

Charles Ray, for some reason or other, never seems satisfied with the first name he picks for a picture. The title to the one which has been referred to, up to date as "Waten Out, William," has been changed to "A Village Sleuth."

ON THE SIDE

YOU KNOW HER. She goes into the dry goods store and wanders round two hours or more. And looks at all the signs. She handles all the latest styles of silks and satins stacked in piles. In long and varied lines. She prices everything in sight and drives the clerks to frenzy quite.

When they can't make the sales. She misses not a customer there, but visits each to stand and stare. And bite her fingernails. They think that she is going to buy the whole store out and wonder why.

She doesn't make a start. You see, she really looks as though she has a whole cartload of dough.

With which she wants to part. And when they ask her, "How much, please?" in tones which show they're ill at ease.

She merely shakes her head. And when she leaves, it's safe to bet she's bought just what she came to get—a spool of cotton thread.

So long as people encourage him by buying things they cannot afford, at exorbitant prices, the profiteer will flourish in our midst.

In Philadelphia they have evolved a neat plan to make a good census showing. Philadelphia will make an earnest effort to remain a regular town if the following slogan given by the "Record" takes effect: "Let every loyal Philadelphian vow to do his utmost to avoid dying until after the census takers have got in their work."

A few days ago somebody connected with the fuel administration advised the people to buy wood instead of coal. "We are always patriotic in so far as within our means, so we started out to buy wood, as our furnace will burn anything from coal to peat. Then we made the discovery that wood, in this fair city, is retailing at \$26 a cord. Somebody else will have to burn wood, that's all.

"He is a dry wit," says a friend of ours, speaking of a certain author. We'll say he is—just now, anyhow.

Spanish War Vets in Gift to Legion Post

RACINE, Wis.—The Racine post of the American Legion claims the distinction of being the first organization of its kind to have the official legion banner. At a meeting Tuesday evening, attended by 500 members, the post was presented with a stand of colors by Camp Hancock, Spanish-American war veterans. The post has a membership of 162.
